RE: Lindsay Light II Site - Parcel 14

Dear Mr. Berggreen:

The U.S. Environmental Protection Agency (USEPA) has reviewed the November 15, 2000 report and the subsequent May 22, 2001 letter report with regard to Parcel 14. Based on these reviews, USEPA has determined that no further monitoring of Parcel 14 for radiologically-impacted soil is warranted. This information was given to you verbally on July 3, 2001.

If you have questions regarding this letter, please contact me, as soon as possible, at (312) 886-5123 or contact Verneta Simon, On-Scene Coordinator, at (312) 886-360, or Larry Jensen, Senior Health Physicist at (312) 886-5026.

Sincerely,

*Fredrick A. Micke*
